**WHEREAS**, the City of Atlanta ("City") Tree Conservation Commission was established by the City's Tree Protection Ordinance (Atlanta Code of Ordinances section 158-26, et seq.) to oversee the management and maintenance of trees on both public and private property, and to establish educational programs that encourage proper management and maintenance of trees on private property so that the City and its residents enjoy the benefits provided by the City's urban forest; and

**WHEREAS**, in 2001, in what is codified as Atlanta Code of Ordinances section 158-66, the Tree Conservation Commission was tasked with establishing a Tree Trust Fund to be utilized for the protection, planting, maintenance, and regeneration of City trees and other forest resources, and for related educational programs and materials; and

**WHEREAS**, the Tree Trust Fund is funded by developers, builders, contractors, homeowners and others as a recompense for permitted and illegal removal and destruction of trees within the City; and

**WHEREAS**, to date, the Tree Trust Fund has a balance in excess of \$3,891,803.62; and

**WHEREAS**, Trees Atlanta Inc. ("Trees Atlanta") is a non-governmental, non-profit organization, which for twenty-two years has been committed to the care and replenishment of urban forestry, and planting trees in the City's rights of way, and there is no other organization with this mission or performing this work; and

**WHEREAS**, Trees Atlanta is the only organization that utilizes neighborhood volunteers to plant trees, thereby dramatically reducing the cost of its services while improving neighborhood involvement and sense of ownership in City projects; and

**WHEREAS**, the City desires to spend not more than \$1,322,325.00 of the funds currently in the Tree Trust Fund to plant and maintain trees throughout the City, and especially Downtown, to contribute toward the Mayor's Downtown Initiative; and

**WHEREAS**, the planting and maintenance of trees will greatly reduce soil erosion, runoffs, and flooding, will improve the air quality, will provide a shaded and cool atmosphere for walking and other outdoor activities, will prompt an appreciation of property values, and will enhance the beauty of the City, thereby making the City more livable and attracting tourists and investors; and

**WHEREAS**, in 2004, 2005, and 2006, Trees Atlanta was granted a contract, paid for from the Tree Trust Fund, whereby Trees Atlanta implemented the "NeighborWoods" program, the "Urban Street Trees" planting campaign, and the Downtown Atlanta Tree Maintenance project; and

**WHEREAS**, under the "NeighborWoods" program, Trees Atlanta planted one thousand four hundred (1,400) eight-foot tall trees in 2004, in 2005, and again in 2006, along neighborhood streets, schools and parks. Each City council district received a minimum of one hundred of those trees each year, and the trees were planted by neighbors, Trees Atlanta volunteers, and local school children. Trees Atlanta maintains the trees and guarantees the survival of the trees for three years, excluding trees lost to theft or vandalism; and

**WHEREAS**, the "Urban Street Trees" initiative is a program whereby Trees Atlanta planted two hundred and forty (240) in 2004, three hundred and seventy-seven (377) in 2005, and four hundred (400) in 2006, large 2.5" caliper (fifteen foot tall) shade trees on sidewalks, medians, strips, and planters along major street corridors connecting neighborhoods to the City. Trees Atlanta maintains the trees and guarantees the survival of the trees for three years, excluding trees lost to theft or vandalism; and

**WHEREAS**, the Downtown and Midtown Atlanta Tree Maintenance project involved mulching, pruning, fertilizing, tree grate maintenance, and watering of trees in designated areas located in Downtown and Midtown Atlanta. The project also involved carrying out a tree inventory to organize tree maintenance, and recording tree planting locations and trees' history by Trees Atlanta; and

**WHEREAS**, the Office of Parks has audited the work performed by Trees Atlanta and determined that Trees Atlanta fulfilled all of its commitments and all of the City's expectations of the work to be performed in 2004, 2005, and 2006; and

**WHEREAS**, the City recognizes that the work performed by Trees Atlanta during 2004, 2005, and 2006 is an excellent use of the monies collected in the Tree Trust Fund, and the

City desires that Trees Atlanta continue performing the tree planting and maintenance services that it performed during the past three years;

**WHEREAS**, Trees Atlanta has submitted a 2007 proposal, attached hereto as Exhibit A, indicating that it would continue to implement the "NeighborWoods" program, the "Urban Street Trees" planting campaign, and the Downtown Atlanta Tree Maintenance project ("2007 Proposal"). The tree planting and maintenance work performed by Trees Atlanta during the past three years has been pursuant to a new contract passed each year, and the term of each contract has been consistent with the calendar year. The 2006 Agreement between the City and Trees Atlanta began January 3, 2005 and expired January 2, 2006. The City desires to have the timing of the Trees Atlanta contract be consistent with the City's fiscal cycle. Therefore, the 2007 Proposal contemplates tree planting and maintenance between January 3, 2007 through June 30, 2008; and

**WHEREAS**, the 2007 Proposal provides that one thousand seven hundred (1,700) trees will be planted pursuant to the NeighborWoods program, with a minimum of one hundred (100) new trees being planted in each City Council district, and the remaining five hundred (500) new trees being planted throughout the three at-large council districts; and

**WHEREAS**, the 2007 Proposal provides that, pursuant to the Urban Street Trees program, Trees Atlanta will plant five hundred seventeen (517) trees along key streets and routes throughout the City. Proposed possible locations include Pryor Street, Metropolitan Parkway, Boulevard, North Highland, Howell Mill Road, DeKalb Avenue, and Campbellton Road;

**WHEREAS**, the 2007 Proposal provides that Trees Atlanta will continue its Downtown Atlanta Tree Maintenance project, which shall include mulching, pruning, fertilizing, tree grate maintenance, and watering of trees in the City located in an area set forth and described on Exhibit B hereto; and

**WHEREAS**, the City has an ongoing need to plant numerous additional trees in City parks but does not have the resources to plant numerous trees itself. The Office of Parks recommends hiring Trees Atlanta to plant two hundred sixty trees throughout City parks for a cost amount not to exceed \$162,500. The exact location of the trees shall be determined by the Commissioner of the Department of Parks, Recreation and Cultural Affairs or her designee; and

**WHEREAS**, currently, Trees Atlanta is performing services to help create a healthy tree canopy throughout the City. The healthy tree services include without limitation maintaining, trimming and pruning trees within City parks and rights-of-way. In 2004, the Atlanta City Council directed the Office of Parks to make this work a priority. Trees Atlanta is contractually obligated to perform this work through July 2, 2007, at a rate of \$262 per hour to be paid from the Tree Trust Fund; and

**WHEREAS**, the Office of Parks recommends that Trees Atlanta perform healthy tree canopy services between the dates of July 3, 2007 through June 30, 2008, at a rate of \$262 per hour, to be paid from the Tree Trust Fund. The cost of this work shall not exceed \$399,900; and

**WHEREAS**, pursuant to ordinance 03-O-1707, approved by the Atlanta City Council on December 1, 2003 and approved by the Mayor without signature on December 10, 2003, and attached hereto as Exhibit C, the City approved an annual expenditure from the Tree Trust Fund not to exceed \$50,000 to pay for costs arising directly from the administration and enforcement of the Tree Protection Ordinance that would not have arisen in the absence of said ordinance. The Atlanta City Council wishes to make clear that this expenditure may be made annually without re-authorizing legislation; and

**WHEREAS**, a maximum of five percent of the Tree Trust Fund may be used for educational materials and programs. This expenditure from the Tree Trust Fund has already been allocated on an annual basis in previous legislation and need not be re-authorized herein.

**NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF ATLANTA, GEORGIA, AS FOLLOWS:**

**WHEREAS**, there are certain costs that arise directly from the enforcement of the Tree Protection Ordinance by the City and by the Tree Conservation Commission that would not arise in the absence of the Tree Protection Ordinance, such as advertisement costs, printing costs, and court reporter fees; and

**WHEREAS**, the Code, section 158-66(a), currently contemplates that the cost of administering the proceeds of the tree trust fund shall be paid from the tree trust fund, but the Code does not place a cap on administration costs nor does it define administration costs; and
